Short presentation of the company's business	<p>Zed is a leading provider of consumer mobile value-added services in six European and Asian markets. While several companies in the mobile sector are struggling, Zed has managed to produce a track record of steadily increasing revenue through well-executed marketing strategies, local product relevance and a very strong network of revenue-share partnerships with mobile operators, application- and content providers and marketing partners.</p> <p>Zed can clearly be considered a world leader on its market segment, based on what actually counts - the figures. Zed delivers more than 1,500,000,000 text messages (SMS) to its mobile customers per year, and at the same time produces healthy amounts of revenue for itself and its partners. Through existing partnerships with 17 mobile network operators, zed is available to a global customer base of well over 150 million mobile phone users.</p> <p>What makes Zed so unique? Experience, reliable technology with wide support for various business & billing models, emphasis on good customer experience, 100% market footprint, strong country organisations in touch with local consumers, excellent marketing and good CRM support, just to mention a few of our assets. Zed is not a 'white label' provider of just technology. It</p>

has a fresh and trendy brand image that appeals especially to people on the move, such as youth and young adults. Zed brings solid professionalism to the mobile services business; our aim is to maximise the experiences of our end users.

STIL, which is short for Soft Touch International Ltd, started its business in Malaysia in January 2004. The main business is personal protection such as safety gloves and safety garments. The company is doing its purchases from all over Asia and selling it to the Scandinavian market. The company will also focus on new logistic solutions to improve the contacts between producers and end-users.

The parent company, Soft Touch AB in Sweden was established in 1913 and has been doing business with Asia ever since. In 2001 the group went abroad and started its first subsidiary in Hong Kong, soon to be followed by offices in Shenzhen and Shanghai in China. The Malaysian office is 100 % owned by Soft Touch AB.

The latest establishment, in Malaysia, has been a strategic choice due to the central location in Asia. The managing director is Michael Cederkvist.
